My Dream:

To become a Test Coach for people that nobody believes in anymore. People that have motivation and will, but no luck.

I want to tap into that potential and shape them into awesome testers.

My Dream:

Participate, as a good qualisopher, in all kind of projects such as sports, culture or software testing. Projects which add value to our community.

I want to inspire other people through cooperation, fun and empathy and hopefully bring light in someone's life.

When people told themselves their past with stories,
Explained their present with stories,
Foretold the future with stories,
The best place by the fire
Was kept for…
The Storyteller.
